

Paul Parker

TAKE IT FROM ME

My years with and without Patrick Cowley, have brought me to a level of interest with dance music that just won't quit. The collaborative effort is always difficult but somehow rewarding, and he was my beginning. A chance meeting, a shared interest, and best friends for life.

Man Parrish and Ian Anthony Stephens kept me on point, thanks again friends!

All of these songs were made possible with the help, support, perseverance, and love from Ken Crivello, Jeff Cerie and Mykel Gubin. This is the team that worked these ideas into the shape they now sport. Thanks to Ken for keeping me on track in every way. Jeff for your lyric sensibility, musicality, and computerability. And Mykel for that underlying thread of connectivity!

All songs ©2010 music and lyrics by Paul Parker & Jeff Cerie. Produced at UTMOSES in San Francisco.

01

Take It From Me

I'm in search of a new sensation
on the verge of a revelation
I'm beamin' it out
for your love

luring me with a smooth vibration
on your way to a full duration
I'm dreamin' about
all your love

with every touch we're feelin' stronger
together we make it last much longer
there deep in your heart
no escaping desire

take it from me
I know what's inside you
take all you want
my love won't deny you
every moment lives or dies
one touch will set us free
as we dare to try
take it from me

now the rhythm's been set in motion
I got a taste for the strongest potion
inside of the sound
I feel love

don't leave me with a crazy notion
out on the edge of a frozen ocean
whether I'm lost or found
I know love

...

i'll be calling your name
reaching out in the dark
when you need a new reason
to be free

02

Chargin' Me Up

lost in a world
i've been searching for
pushin' my dreams
to the edge more

feelin' so good
it's the freedom of night
deep in the glow
with no end in sight

gimme the sign
I've been waiting for
look in my eyes
open that door

blind with desire
keep me chasing the light
got me so up
got me feelin'...so right

chargin' me up

*feel alright when you
charge me up
the way you move
showin' me what's what*

the way you move
keeps chargin' me up
keep chargin' me up

you send a thrill
to my very core
whatever you need
we can explore

anticipation
a dazzlin' height
i'm so alive
got me feelin'...so right

chargin' me up...

03

Wallflower

unravelling in a solo stretch of time
now every move I contemplate
how to make it mine

how long can I keep up this stance?
out on the periphery
hesitating to join the fate that's
gyrating in front of me

I could hang on the edge and bide my time
but then i'd never know what I might find?

i'm feeling ready to
raise the bar a little higher
(higher boy!)
wide-eyed and electrified
i'm not a martyr

(the music's pulling me...)
the night is open come on take the stage
I do believe you could be all the rage

wallflower
wallflower
don't you know
you've got the power!

(I hear them calling me...)
when more than supermodels fill the floor
tonight can turn out to be so much more

we only need a single spark
to start a fire (fire, boy!)
my heart is an open book
full of desire

(the music's pulling me...)
if there's a contest then I want the prize:
to cause a look of wonder in your eyes

wallflower
wallflower
don't you know
you've got the power!

(I hear them calling me...)
i'm losing my hold
the music's taking control
i'm one with the scene
this is more than a dream

can you show me
what lays beyond the bend?
cuz I don't know
just right where the boundary is

04

Don't Stop (What You're Doin' To Me)

I've been searchin'
all the world over
baby I ain't had
nothin' that was this hot yet...not yet

what I see is what I get
bein' with you is like
dancin' in a burnin' room...oh yeah

do you feel me now
I hope it never ends
me and you together
carryin' on through the night...all night

don't stop
please don't stop
what you're doin' to me
come on
feels so hot
turn it up a degree
don't stop
please don't stop

baby we were
meant to be lovers
the moment I see you
I just wanna scream and
shout...again...and again

well you ain't seen nothin' yet
our hearts beat faster
just keep addin' fuel to the fire...oh yeah

showin' all the world
what we're all about
steppin' from the shadows
reachin' out into the light
so right

don't stop...

now I cut to the left
and you come into sight
are you ready for lift off?
keepin' it real
feelin' the power!

don't stop...

05

Echoes Of Love

the power of love
it draws you in
runs deep and holds strong
gets under your skin

so mysterious
don't go away
you're so mysterious
I need you to stay

right here in my arms
entangled...forever lost
in the echoes of love

whatever the journey
we share a need
no matter how far
our passions they lead

so mysterious
a world in your eyes
you're so mysterious
angel in disguise

right here in my arms
entangled...forever lost
in the echoes of love

the echoes of love
the echoes of love...

06

Letting Go

with a feeling inside
a subtle calm taking hold
showing me where I live
only wants what is mine to give

throw my heart open wide
so every river can flow
no more need to possess
find the meaning and leave the rest

I want to see
through the eyes of a child again
take in the wonder of places unknown
alive with the mystery
of what lies around the bend
finally making a peace on my own

I'm letting go
I feel the words
as they release me again

beyond control
where only truth
can hope to reach me
and when...

there's the earth far beneath us
with the sky wide above
I'm letting go.

I've been carried away
by a voice on the wind
steady, silent and free
telling me that it's meant to be

setting myself on a journey
that's open end
no one to show me where i need to go
strange how i feel like I'm
on my way home now and then
echoes of memory guiding me so

I'm letting go
I feel the words
as they release me again

I long to know
what only time
alone can teach me
and when...

there's the earth far beneath us
with the sky wide above
I'm letting go

07

I'll Be That Man

if you're lookin' for a
real straight shooter
a sure-fire son of a gun
need a man to seal your reputation
keep your late night blues on the run

find yourself in such a bad situation
need a champion second to none
every villain out to drive you crazy
'til you feel like comin' undone

deep inside you need an equalizer
and if you give me a chance

I'll be that man
the one to make things right
I'll be that man
let me prove it all night
I'll be that man

I could hold out for an invitation
but with you I'll cut to the chase
jump inside, I'm set to rev this engine
undercover, no time to waste

got the method to untie your hands
If there's a heartache you want to erase
you've found an agent without hesitation
say the word, I'm right on the case

need your burden to be so much lighter?
then you should give me a chance

I'll be that man
the one to make things right
I'll be that man
let me prove it all night
I'll be that man

I'll be that man
when you require advice
some kinda trouble in your paradise?
I'm just the guy to dial right up
when all the chips are down
give me a try, for you I'll be around

I'll be that man
the one to make things right
I'll be that man
let me prove it all night
I'll be that man
the one to make things right
I'll be that man

08

Just Hold Onto Love

can we just hold onto love
can we just hold onto love
hold onto love

I believe another day will come
when we're stronger than before
and I've a feeling all the things we've done
can lead to something more

every time I start to think about you
you know it feels so right
why am I lost in another sleepless night?

tell me why now if I close my eyes
you're the only one I see
somewhere far beyond my wildest dreams
together it feels so free

It would be a lonely night without you
we've never crossed that line
got to show you...I want to make you mine

can we just hold onto love
can we just hold onto love
with even a touch
just hold onto love

now we've got to keep the fire burning
burning like a fire in the sky
hold each other while the world is turning
together we can spread our wings and fly

hold onto love...

can we just hold onto love
can we just hold onto love
with even a touch
just hold onto love

09

(English Translation)

Piovendo Per Te

lei merita
amore veramente
lo voglio te
con piacere
lavorar duro
farcela verace

con tutto il cuore
l'anima rivelare
tieni il mio migliore

sta piovendo per te
sognando di te
al tuo ritorno
raggi di speranza

da me a te
ti mancho
vederte presto
far vederte
cosa seria non sciocca
te manco tanto

ti dico un segreto
con soddisfazione
penso sempre a te

sta piovendo per te
sognando di te
con affetta
cosa meravigliosa

sta piovendo per te
sognando di te
al tuo ritorno
raggi di speranza

a braccia aperte
eccola meravigliato
essere presi dagli travolti
giocare con il fuoco

...

sta piovendo per te
sognando di te
al tuo ritorno
raggi di speranza

Raining For You

be deserving
love truly
I want you
for pleasure
work hard
make it real

with all my heart
reveal my soul
you have the best part of me

is it raining for you?
I'm dreaming of you
await your return
a ray of hope

from me to you
I miss you
want to see you soon
make you see
no laughing matter
I miss you much

I tell you a secret
with satisfaction
forever thinking of you

is it raining for you?
I'm dreaming of you
with affection
wonderful thing

is it raining for you?
I'm dreaming of you
await your return
a ray of hope

with open arms
be amazed
to be swept up by events
play with fire

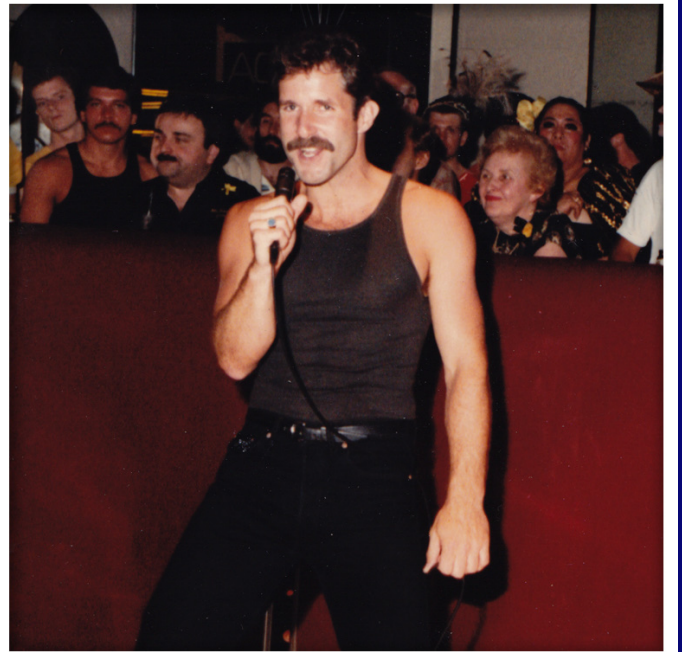

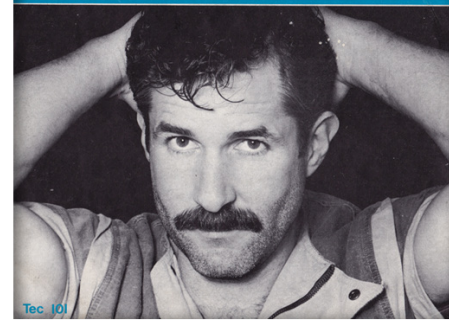

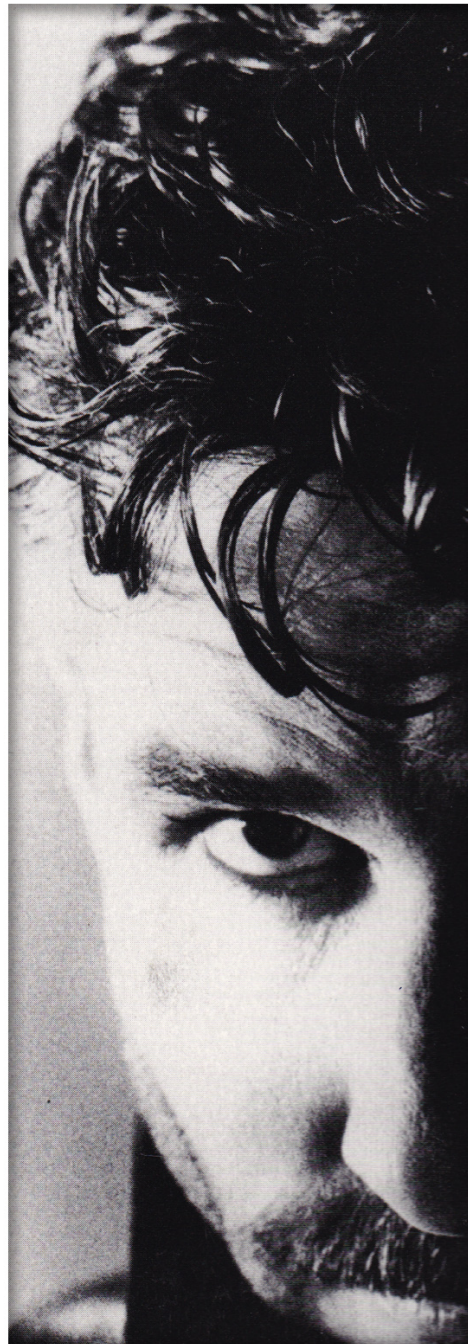

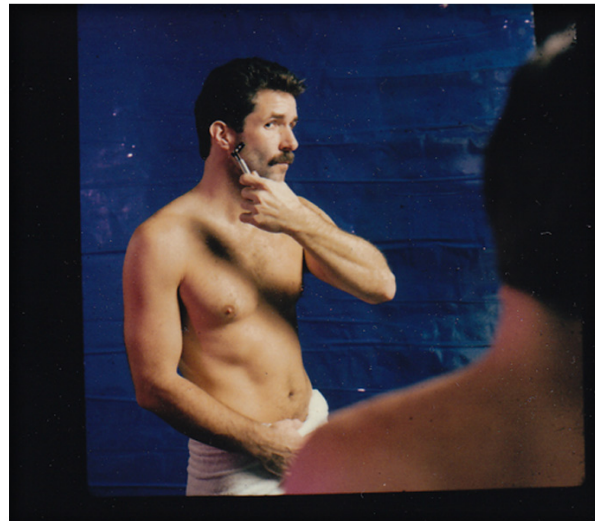

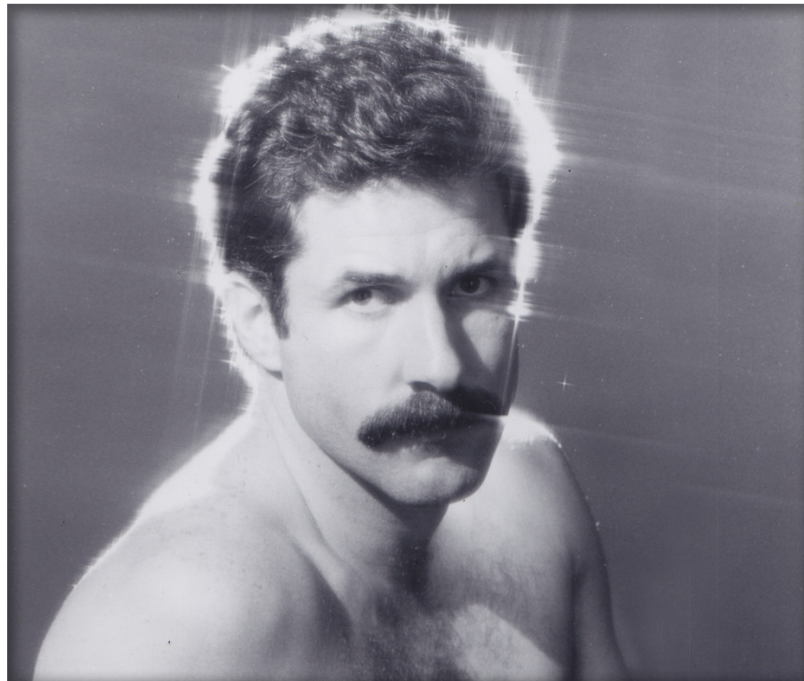

...

is it raining for you?
I'm dreaming of you
await your return
a ray of hope
